## CHESAR ARENI 2022

Chesar produces one wine; a single-vineyard Areni that expresses the terroir of its 45 year old vines. Established in the 1980s, this vineyard in Aghavnadzor is south-facing, which helps ensure perfect grape ripening. All pruning and harvest operations are performed manually.

The vineyard is irrigated twice per year, with traditional furrow irrigation.

Post fermentation the wine is aged in 2nd use barrels for 6 months, and undergoes light filtration. The result is an elegant, refined take on Vayots Dzor Areni from an organically managed vineyard; low-intervention winemaking has yielded a transparent wine light on its feet but full of flavor.
