NOA WHITE 2023

Inspired by the story of Noah, who planted the first grapevines on the sunny slopes of Ararat, Noa's founders set out to discover, reconnect with, and renew the origins of wine.

Meticulous to the core, they embarked on a serious quest for the finest terroir – and settled on select high altitude sites within south eastern region of Vayots Dzor. Bright sunshine, high elevation, and minimal intervention during vinification by Arman Manukyan have enabled NOA to become a leading player in Vayots Dzor. Pavel Vardanyan has recently taken over the winemaking, having worked closely with Arman previously on other projects.
